ABOUT

With my growing expertise in machine learning techniques and my thorough understanding of SQL, Power BI, and Tableau, I am a dedicated data analyst who is well-suited to work at the intersection of data analytics and emerging technologies.

EDUCATION

Higher Secondary Certificate
CBSE Central Academy, Udaipur
2020

Bachelor of Computer Applications
UCS, MLSU, Udaipur
2020-2023

SKILLS

- Data Visualisation(Tableau,PowerBI)
- Data Manipulation (SQL)
- Data Cleaning (Pandas)
- Machine Learning
- Communication

CERTIFICATIONS

- **Data Science Course**
  Fingertips Fin, Ahmedabad
  2023-2024

- **Diploma in Software Engineering**
  VIIT, Udaipur
  2021-2023

PROJECTS

Power BI
IPL Analysis Dashboard

- This dashboard provides a comprehensive analysis of IPL data, including key metrics like title winners for each season and individual player performances such as Orange Cap and Purple Cap winners and season wise 4's and 6s
- Moreover, the dashboard delves into match insights by exploring matches won based on toss decisions and venue, revealing strategic influences on outcomes. It categorizes wins by result type, providing a holistic view of match-winning strategies and team performances across multiple seasons.

SQL
Hospitality Insights Power BI Dashboard

- The SQL queries analyze sports data, including unique team names, top-ranked teams, match counts, win, draw, and loss percentages. These metrics provide insights into team performance for strategic decision-making.

SQL
Blinkit Grocery Sales Analysis

- By conducting thorough data analysis and thoughtful interpretation, stakeholders in the online grocery market can discover growth opportunities, refine product offerings, and enhance customer satisfaction. This empowers businesses to make well-informed decisions and improve their overall performance in serving customers effectively.

Tableau
Blinkit Grocery Sales Analysis

- The Tableau dashboard offers real-time insights into sales metrics, with sections for Sales Overview, Average Price Analysis, and Cars Sold Metrics covering total sales, pricing trends, and volume. Sales Overview shows YTD Total Sales and YOY Growth for a quick view of performance. Average Price Analysis includes YTD Average Price and YOY Growth in Average Price for pricing insights. Cars Sold Metrics feature YTD Cars Sold and YOY Growth in Cars Sold for sales volume trends.
